

CHRISLAND UNIVERSITY

JULY 2018

FROM THE DESK OF THE FOUNDER/CHANCELLOR, CHRISLAND UNIVERSITY,

HIGH CHIEF DR. (MRS) W.A AWOSIKA (OON).

We have successfully come to the end of another fulfilling and rewarding session. We cannot but express our profound gratitude to God for keeping everyone of us-parents, students and staff of this great institution, Chrisland University.

As you are aware, Chrisland University was borne out of the passion to provide excellent tertiary education with high ethical standards. It is our vision to raise a generation of world class leaders who are not only enlightened and intellectually sound, but who also possess high moral standards.

That is why I want to use this medium to share my thoughts with you.

More than ever before, we solicit and appeal to everyone, especially our parents and students, to give us the optimal support and cooperation needed in achieving our lofty goals. The Vice Chancellor, Prof. (Mrs) Peace Babalola and her wonderful team of experienced professionals are all ready to give their very best at all times. Please accord them all necessary support and cooperation.

To our esteemed parents, I appeal to you to kindly pay personal attention to your children and wards while on vacation. They are young adults who still need your wise counsel and guidance; they should not be left alone. Also, pay attention to their academic results and see how you can encourage and

We noticed that some students do not have the required textbooks for their courses, these are essential for them to excel in their studies. Kindly provide the necessary and basic requirements for them. Also try and engage them in positive and rewarding activities to keep them busy during the vacation.

To Chrisland University students, this University as you are aware is founded on love, peace and unity. Irrespective of your tribe, race or religion, you are brothers and sisters; you must therefore promote peace and never engage in anything that can jeopardise the peaceful and conducive environment.

• **Say NO to negative vices:**

Chrisland University stands for light; therefore you must strive to shine as light where ever you go. Do not ever engage in anything that can ruin your life and damage your future. Stay away from drugs, alcohol, cultism, cheating and immoral acts which many youths engage themselves in to the detriment of their lives and future. Instead, channel your energies to purposeful and rewarding goals.

• **Spend your time judiciously on your studies:**

Many students, I am told, have poor reading habits; they do not take their studies seriously. To whom much is given, much is expected. We have invested a lot in acquiring the best lecturers, equipped the lecture

purpose-built environment is to ensure you acquire knowledge in the most conducive way. Please make the best of the facilities.

• **Set personal goals and targets:**

From personal experience, I know the benefits of setting high goals and striving hard to meet them. Without set goals and well laid out plans to achieve them, a student can easily get distracted and lose focus. Such a student cannot easily achieve outstanding success. I therefore encourage you to reflect on your academic life so far and plan how to improve day by day.

• **Watch the company you keep:**

Evil communication they say corrupts good manners, therefore watch the company you keep especially during this vacation and stay out of trouble.

To the staff of Chrisland University:

It has been a challenging session, but we thank God for helping us thus far. I charge you to continue to fly the flag of excellence which Chrisland University stands for and put in your very best at all times. I wish you all a restful and peaceful vacation.

Thank you all, and may God bless you.

High Chief Dr. (Mrs) W.A Awosika
(OON)
Founder/Chancellor
Chrisland University.
